

Convenient credit card payment processing for travel agencies

The ARC Pay credit card processing platform provides ARC-accredited travel professionals with a simple and efficient way to process credit card payments for any travel-related good or service.

Increased financial efficiency

Convenient and flexible

With ARC Pay, there's no need to establish or manage multiple merchant accounts. All major credit card brands are accepted including UATP. With ARC Pay GDS, process payments within your preferred GDS. If you need to work outside a GDS, ARC Pay Hub is conveniently available via My ARC.

Spend less time on data entry

When working in your preferred GDS, ARC Pay automatically pulls in ticket reservation data, so you never have to re-enter passenger information or credit card numbers, freeing up more time to do what you love – plan travel.

Receive consistent cash flow

Payments are issued as part of your weekly ARC report on Fridays, with no additional hold-back period for transaction verification. Plus, ARC Pay offers an extended void window to help manage business realities.

Simple, transparent pricing

With ARC Pay, there are no monthly commitments, minimum amounts or surprise costs. ARC Pay has flat-rate pricing of 3.5% with a \$0.70 minimum. Rates never vary, regardless of the card being processed. A \$27.99 quarterly subscription charge applies only when there is activity during the quarter.

ALL your
travel-related
services**

Streamlined credit card processing solution

Options for Every Need

Easily integrate credit card processing into the way your agency works. ARC Pay GDS is convenient if want to work in your preferred GDS, ARC Pay Hub can handle other scenarios and the ARC Pay API makes integrating credit card processing into your travel apps easy.

Back-Office Integration

Process transactions through your GDS for a direct feed into back-office accounting systems and a single report for both reconciliation and submission.

High Transaction Limits

Charge up to \$10,000 per transaction with no additional financial collateral or bond required.

Accessible Transaction History

Quickly and easily access your credit card acceptance history for the past 39 months using ARC Document Retrieval Service (DRS).

The amount of time our staff has to spend charging a card is minimal. They are already working in the GDS, so with just a few keystrokes, they are done. This allows them to focus on what's important ... selling travel and servicing their customers.”
